

Please complete the below items to assist us in designing a HSTP system to best suit your individual requirements.

(please note, this form will need to be completed and returned prior to design)

1. Preferred System Selection:

(please tick)

- Treatment Plant (please indicate brand if known)
 - Biocycle
 - Biolytics
 - Ozzi Kleen
 - Ecosafe
 - Aqua-Nova
 - Eco-Nova
 - Envirocycle
 - Other – (Please specify) _____
 - Unknown

- Septic System (Will require absorption beds and is subject to site assessment and results)
 - * Please nominate a second preferred option where assessment results indicate a septic system is not feasible.

- Composting Toilet, Worm Farm or similar

- Pump-Out Holding Tank

- Other – (Please specify) _____

- Unknown

2. Disposal/Irrigation Method: (subject to council regulations)

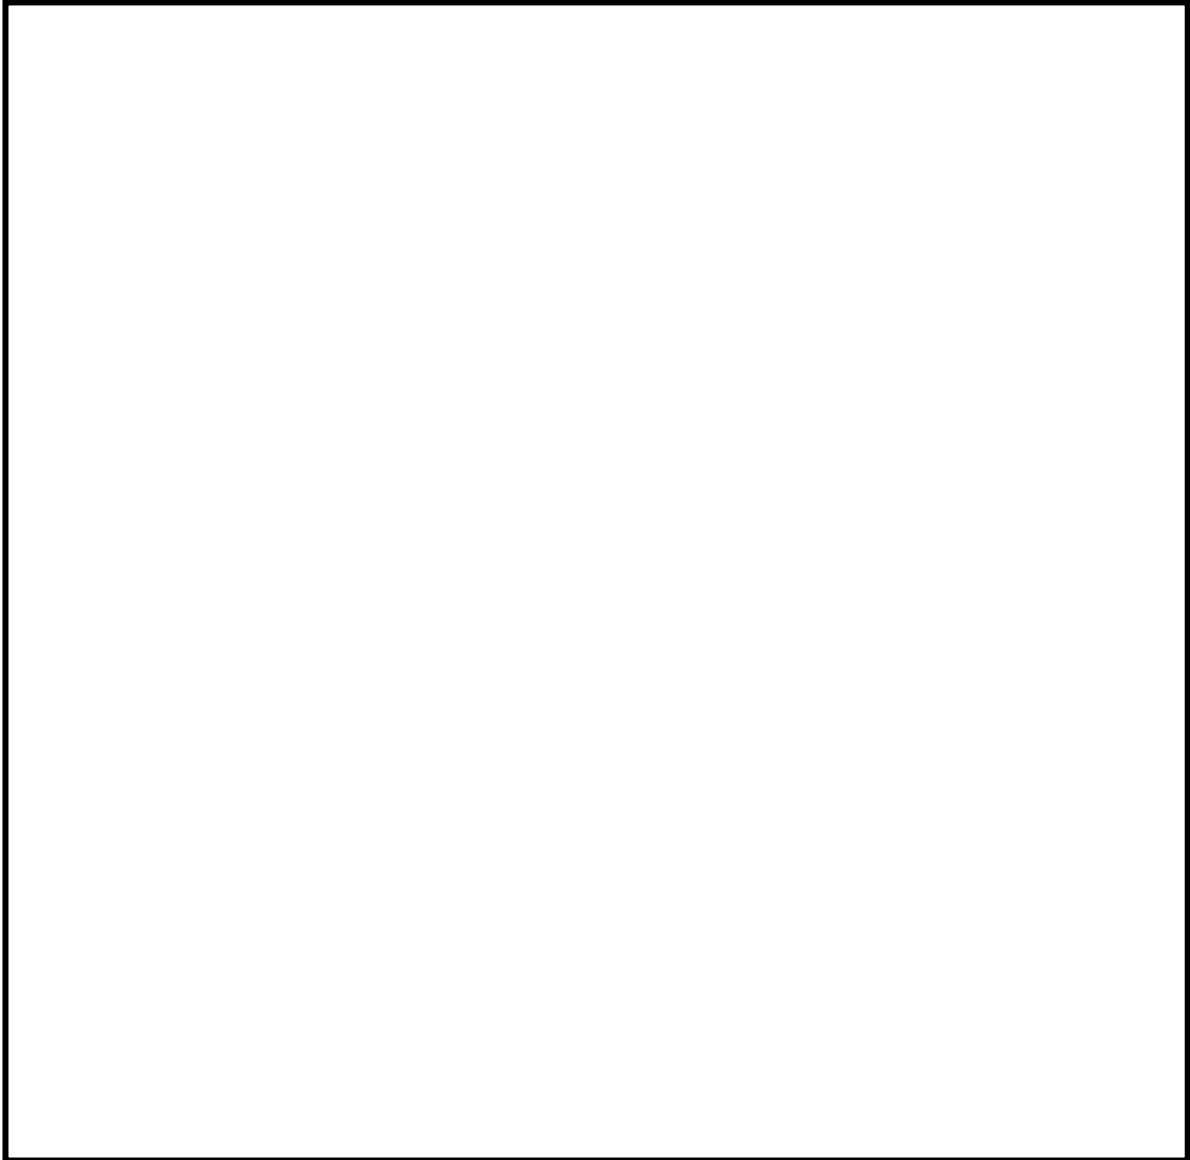

- Sprinklers (mostly suitable on acreage blocks)
- Sub-Surface (under Turf)
- Absorption Beds (predominately used for septic systems. Subject to site assessment and results)
- Covered Surface (under mulch in garden beds)
- Other – (please specify) _____
- Unknown

**CLIENT PREFERRED REQUIREMENTS FOR
ON-SITE EFFLUENT DISPOSAL SYSTEM DESIGN**

Page 2 of 3

3. Please complete a quick site sketch of your block below

Ensure you include the proposed dwelling location as well as the location of any existing or proposed structures ie. Dams, Sheds, Swimming Pools, Vegetable Gardens, Cubby Houses, Driveways etc. These additional structures can limit design options, especially on blocks under two acres.

Road

4. Please indicate your preferred disposal area location on your site sketch above (if any).

Preferred locations will be accommodated where possible providing the location does not conflict with any of the following limitations:

- Site assessment results
- Council regulations
- Standard minimum offset requirements

ON-SITE EFFLUENT DISPOSAL SYSTEM DESIGN**

Page 3 of 3

5. Will your water supply be:

- Community reticulated (including trickle-feed)
- On-site roof water only
- and/or Bore Water

6. Please include the following items when submitting this document.

Mandatory:

- RP of Block
- Copy of dimensioned house plans (if not supplied for the foundation design)
- Site plan showing offsets from the proposed dwelling to the boundaries including a rough indication of the offsets of any other structures. (If a plan is not available, please indicate these offsets on your site plan sketch on page 2)

Additional information: (please supply if at all possible)

- Contour Survey (this item is **mandatory** if you have requested **sub-surface irrigation**)
- If you are aware of a building envelope, a plan indicating it's location would greatly assist with the design. (obtainable from your local council)

7. Contact Information:

While every effort will be made to design the system to your preferences, sometimes this is not possible due to the site assessment results, council regulations or the standard minimum offset requirements stipulated by the On-Site Domestic-wastewater Management Standards.

In the instance your preferred option will not be feasible, you will be contacted to discuss your alternate options.
